mashrabiya (Arabic:

مشربية),

also either shanshā

(شاشية) or

rāshān (رأسان),

is an architectural element

which is characteristic of

Arabic residences. It is a

type of projecting oriel

window enclosed with

carved wood latticework

located on the second story

of a building or higher,

often lined with stained

glass. The mashrabiya is an

element of traditional

Arabic ... Mashrabiya -

Wikipedia - Carex is a vast

genus of more than 2,000

species of grassy plants in

the family Cyperaceae,

commonly known as sedges

(or seg, in older

books). Other members of

the Cyperaceae family are

also called sedges, however

those of genus Carex may

be called true sedges, and it

is the most species-rich

genus in the family. The

study of Carex is known as

caricology Carex -
