Mortality of centenarians: A study based on the Social Security Administration Death Master File. Full Paper presented at the Annual Meeting of the Population Association of America (Philadelphia, March 31 - April 2, 2005, oral presentation). CV of Leonid Gavrilov - Longevity Science - In statistics, a confidence interval (CI) is a type of interval estimate, computed from the statistics of the observed data, that might contain the true value of an unknown population parameter. The interval has an associated confidence level that, loosely speaking, quantifies the level of confidence that the parameter lies in the interval. More strictly speaking, the confidence level ...
